- Deployments: Netlify, Firebase Hosting
- Node.js + Express (or NestJS) for building APIs
- SQL + PostgreSQL, migrations, ORMs like Prisma

LANGUAGES

- English
- Spanish

PROFESSIONAL OVERVIEW

Front-End Developer with hands-on experience building responsive, accessible, user-focused web applications. Strong in HTML, CSS, JavaScript, React, and integrating APIs, with professional experience delivering marketing and web builds in WordPress and HubSpot. Known for translating business goals into clean, polished UI through clear communication, QA, and cross-browser testing. I am currently completing a full-stack program focused on TypeScript, Angular, Firebase, and unit testing.

WORK EXPERIENCE

Tarkenton Companies — Junior Front-End Developer
(2022–Present)
• Build and launch responsive pages and reusable components in WordPress (Beaver Builder) and HubSpot for lead gen and marketing campaigns
• Develop and maintain front-end features with HTML, CSS, and JavaScript, prioritizing accessibility, performance, and cross-browser support
• Extend WordPress functionality by building and maintaining custom plugins and site enhancements to meet business needs
• Implement and troubleshoot tracking and conversion flows, including UTM creation, form behavior, and third-party integrations
• Manage operational web tasks including 301 redirects, link fixes, basic technical SEO checks, and launch support
• Own QA and debugging using Chrome DevTools, device and breakpoint testing, and regression checks before release
• Collaborate with PMs and designers to translate requirements into clean UI, reduce rework, and deliver on deadlines
• Document processes and mentor teammates through shadowing and feedback to improve consistency and delivery speed
• Delivered web and campaign builds for clients across fintech, payments, POS systems, retirement and wealth planning, healthcare services, e commerce, and B2B software.

Pro-Package — Customer Service Specialist
(2016–2021)
•Managed 50+ calls per shift and resolved escalations effectively.
•Reduced wait times by 35% by optimizing workflows.
•Identified and escalated fraud risks.

SENIAT — Operational Fraud Specialist
(2013–2016)
•Reviewed tax and financial documentation for risk indicators.
• Produced audit-ready compliance reports.
Venezuelan Bank — Customer Service Associate & Assistant Manager (2011–2013)
